For all other advertising legal rates will be charged.

WEDNESDAY, MAY 17, 1899.

NATIONAL AND LOCAL POLITICS.

That the electoral vote of Nevada next year will be cast for William Jennings Bryan goes without saying. He will carry the State by at least a two-thirds majority, and all the powers of C. P. Huntington, Hanna's sack and hades cannot prevail against him. That being the case, there is no particular necessity for the consideration of national politics in connection with local reform. The delegates to the Democratic National Convention will be chosen by a convention called by the Democratic State Committee, and an electoral ticket nominated either by that convention or another called by the same committee. The Democratic will be the dominant party in the State so far as the national ticket is concerned, as it will be locally, if it keeps itself clear of the contaminating element which will seek to control it. If the organization is controlled by the honest and sincere silver men of Nevada, it will make a clean sweep in all of the counties, locally as well as nationally throughout the entire State. If, however, it permits the intrusion and resigns the reins of power to the gang who, through the late Silver party, has made our State government a toy and tool for the political representative of the Southern Pacific Railroad company, it will meet the local defeat which it will so richly deserve. Our corporation dictator cares only for political principle as a means to effect its nefarious ends, and the party that can best serve it in that respect is the one that it always seeks to control. Knowing that the name of Bryan and the intense silver sentiment of the people will give the Nevada Democracy a walk-over next year, it will seek to avail itself of a most righteous cause, and prostitute it to its unholy purpose. Some of the injudicious henchmen of the corporation boss have already boasted that their master will have complete control of the Democratic party in 1900, as he had of the so-called Silver party for the last six years, and that there would be no change in the political leadership in the State.

The JOURNAL has heretofore warned the Democrats and all Silver men in the State that such was the purpose of the office seeking and treasury plundering gang that has brought one commonwealth to the verge of bankruptcy, and to whom the people are indebted for the foisting upon them of superfluous officials in our State institutions whose aggregate salaries amount to upwards of \$10,000 per year. Unless the scheme of those plunderers and corporation tools is defeated within the Democratic party, it will be crushed outside of it, and the JOURNAL will be found among the outside crushers.

It is now thought that copper will at least reach the 20-cent mark, if it does not go beyond it. It seems to be not so much a question of price as to where to look for sufficient metal to supply the still increasing demand.—S. F. Mining Press.

Cast your eye Nevadaward and you will find at least a partial solution of your problem. Until the last year or two, copper has received but little attention from our mineral seekers. But since the search was commenced in earnest, the fact has been clearly developed that Nevada's mountains contain the metal in such abundance as to justify the prediction that her output in the near future will prove an important factor in supplying "the still increasing demand."

PRESIDENT DIAZ and Lord Minto, Governor of Canada, with their cabinets, are to meet President McKinley and his cabinet at Chicago October 9th, on the occasion of the laying of the corner stone of the federal building in that city. It is to be hoped that Mexico's President will give our Chief Executive some suggestive hunches as to how he has managed to keep his republic on the crest of the wave of prosperity, while dragging a silver anchor from the chain holes of his Ship of State.

Miss JULIA DENT GRANT is going to marry Prince Contasuzine, whoever he is. Well, we suppose the poor girl couldn't do any better, and is rather to be pitied than blamed. An eligible American young man generally prefers a wife with at least a thimble-full of brains, and evidently Miss Julia doesn't come up to the standard.

As much as has been said about embalmed beef it cannot be denied that it made good stakes for quite a number of people who handled it.

According to our neighbor around the corner, prosperity brings with it an appetite for rotten beef. At least it lectures the JOURNAL for referring to the decayed bullock upon which our soldiers were fed, when the wave of prosperity is submerging everybody in Nevada in its briny depths.

NEVADA exports a good many thousands of dollars annually for a corresponding importation of chickens and eggs. That isn't the way for the people of a State to get rich, according to the best authorities on political economy. Nevada, instead of being an importer, ought to supply the California deficiency on hens and hen fruit, which now comes from the sunrise side of the Rocky Mountains.

Matters in Cuba and Other Places.

President McKinley is troubled over conditions in Cuba. Rioters make things lively at Havana. The military is called out to keep the peace, but before order is restored one man is killed and several are wounded. General Gomez on Monday informed General Brooke that he could not participate in the plan for distributing the \$3,000,000 sent to Cuba to pay off the Cuban soldiers. There are about fifteen thousand Cuban soldiers still under arms, subject to the command of Gomez, who refuse to surrender their arms, which is not assuring to the administration. As things are it looks very much as though Cuba may prove to be a greater load than the United States will care to carry in the interest of good government for the people, who it seems are incapable of appreciating the kindness of the American people. A want of confidence by the Cubans in the good faith of the Americans seems to have much to do with affairs as they are.

The Samoan difficulty is not as satisfactory as it might be, and war and peace in the Philippines seem so mixed that it is hard to tell from late advices which is most prominent on the chess board of events, which conditions must be expected for some time to come with these half civilized and savage peoples.

BREVITIES.

Genuine Joules English ale on drough at Thyas.

Monday's V. & T. local carried as freight a fire engine for the town of Gardnerville.

The Appeal says that John Myers' new building is rapidly nearing completion. Mr. Myers is one of Carson's most substantial and public spirited citizens and pins his faith to the Capital City.

The Gazette is evidently of the opinion that no Nevada newspaper has a right to report a mining strike or the fortunate winner of a lottery prize, unless it gives full credit for it to Mr. McKinley.

The JOURNAL inadvertently omitted the name of Dr. J. E. Stubbs in its report of the proceedings of the citizens' meeting Monday night. He was one of the leading spirits of the gathering and made a forcible address upon the commercial advantages to be attained by Reno through earnest and concerted action by its citizens.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Some Handsome Vehicles.

T. L. Abel, A. B. Gage, M. Stevens and L. F. Mason of the Spaulding Manufacturing company, Grinnell, Iowa, are in Reno with a car load of buggies and springwagons of their own manufacture which they are offering direct to the consumers. The buggies are honestly constructed and handsomely finished and are especially adapted to western roads and climate. The vehicles are displayed opposite Parry's livery stable. m17t

Encouraging Tests.

Fifty pounds of ore worked at the electric reduction works, as an experiment, produced a nice little button of silver and gold of about the intrinsic value of \$7. Ten pounds similarly worked yielded about the same proportionate quantity of the precious metals. The ore was from the Electric mine near Oresans, and several hundred tons of it are now at the reduction works.

Appointed Delegates.

The County Commissioners yesterday appointed the following residents of Washoe county as delegates to the Trans-Mississippi Commercial Congress, which this year meets at Wichita, Kansas: John Sparks, G. W. Mapes, William Thompson, W. H. A. Pike, W. A. Cobb.

Persian Sheep.

Red sheep are curiosities in Nevada, but there are specimens of that color in Dan Wheeler's flocks. They were propagated in Mr. Wheeler's herds by the introduction of Persian sheep of which there are but few in this part of the world.
